Dear Sir or Madam,

We are appealing a decision made by the USAC in a letter dated June 22, 2006. The CC Docket No. is 02-6. Other requested information includes:

Company Name:	Owensboro Indep School Dist
Billed Entity No.:	128995
Form 471 No.:	364245
Contact Name:	Ron Milliner
Contact Address:	1335 W. 11 <sup>th</sup> Street, Owensboro, Kentucky 42301
Contact Telephone:	270-686-1000 x 238
Contact Fax:	270-684-5756
Contact E-mail:	Ron.Milliner@owensboro.kyschools.us

We are making the appeal based on FCC policy regarding appeals as stated on the USAC web site: "When the appeal provides documentation to correct an incorrect USAC assumption made because there was insufficient information in the application file about an issue." We believe the USAC made an incorrect assumption regarding a Form 486 that we mailed to them which resulted in their changing the date of our filing the Form 486.

We were informed on June 5<sup>th</sup>, by Lynné Fosson of Pomeroy IT Solutions, that payment on the following FRNs had been denied to them: 1040797, 1017948, 1019661, 1017896, 1040777, 1040711, 1017756, 1040646, 1017859, 1040752, 1040661, 1040673, and 1040821. The Form 486 number is 265114. The reason given by Amanda in the USAC's customer service department was "because the 486 was filed later (2/27/06)" and "that they (SLD) automatically changed your service start date to 10/30/2005." "Anything that shipped prior to 10/30/2005 will be denied payment because it is against program regulations." This phone conversation with Ms. Fosson was the first that we had heard about the date change on the 486, and we filed an appeal

DATE

to the USAC the following day. It was denied because it was 60 days after they had changed the date.

In our February 27<sup>th</sup> letter to the USAC in which we sent the copy of the questioned 486, we informed them that what we were sending was "a copy of the 486 we submitted in June, 2004." We are arguing that the service start dates should be those on the original 486 that we submitted which were all March 16, 2004. A copy of the original 486 is attached.

The following is an explanation of the e-rate process for this particular 486. I filed my other Form 486s online that year. I could not do this one because of the SPIN change request and service substitution that we had to do for this particular 486. According to the USAC web site, "You must submit a copy of your SPIN Change request with your Form 486." (<http://www.universalservice.org/sl/applicants/step10/form486-deadlines.aspx>). I completed my SPIN change request and service substitutions and mailed it along with the 486 in June, 2004. The first returned receipt card I have from SLD is dated June 7, 2004. A copy is attached. This information was mailed to the New Jersey address as directed to do by the instructions on the USAC web site. If it was not for the State Replacement Contract change that had to be made, then this 486 would have been filed online with the rest of our 486s and would have gone to the Kansas address.

We waited months to hear. I used your online form to inquire about it, but got nowhere that way. I finally called and was told that you had no record of receiving it, even though I have a signed card showing it had been received. So I mailed the package again on January 28, 2005. I have a print out from the United State Postal Service Tracking web site showing it was delivered on Feb. 1, 2005 at 12:21 p.m. A copy of this page is attached. After sending the second time, I called after a few days to confirm that you had received it. I was told once again that you did not have a record of it. At that point we got the state involved. I have another Certified Mail Receipt showing that I mailed the package again on Feb. 4, 2005. A copy is attached. I'm not sure if that was before or after I talked to Kim Duvall at the state department.

Kim worked with a man named Larry at USAC. I don't have his last name on the paper work I have. At some point he asked me to fax him just the operational SPIN changes for that year. This document was the same thing that had been mailed three times to the USAC. That portion of the package was faxed on Feb. 25, 2005. I am attaching a copy of the fax sheet report showing the date and that all pages were received. After that delivery, we got the final approval.

So basically we feel that not only did we submit the 486 once, but that it was actually submitted three times June 7, 2004, January 28th, 2005, and February 4th, 2005.

Since the USAC changed the starting date on our Form 486 to October 30, 2005, this change puts our purchasing and installation window from October 30, 2005 to September 30, 2006. Obviously, the September 30, 2006 deadline has not passed yet. Thus, we could return the items, get a refund credited to our account, issue new purchase orders to repurchase the equipment, have Pomeroy issue new invoices, etc. All of this work seems a bit overburdening to comply with the change that USAC has made due to what we feel was a loss of our original 486. We feel that the enclosed items show that we have made great effort in trying to comply to USAC

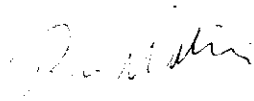

regulations even in spite of the frustrating problems we have experienced with USAC in apparently misplacing three packages of materials that we have sent to them.

In a recent "E-rate News" newsletter (copy enclosed) regarding the FCC's flexibility in granting appeals, FCC Commissioner Copps stated "clearly, these cases are not about waste, fraud or abuse. These are about limited, and I believe, relatively minor ministerial errors. When a school inadvertently provides the right information on a slightly dated but virtually identical form, when technical problems prevent an applicant from interfacing with USAC's electronic filing system and when a third-party carrier prevents an application from arriving in a timely manner, flat-out funding denial is a harsh consequence. It can be especially harsh when, as was the case in one application here, a minor clerical error led to a denial of E-Rate funding for an entire state. In fact, it becomes hard to square denial for slight clerical errors like these with our duties under the statute to further the deployment of advanced services." We trust that the FCC will manifest a similar spirit in this case and grant our appeal so that Pomeroy IT Solutions may receive their payment for the networking equipment we have received.

We are requesting that a decision be made before September 1, 2006, so that if our appeal is denied we will still have time to repurchase the equipment during the open purchasing window that is now in place (October 30, 2005 – September 30, 2006).

I hope this information and enclosed documentation will help clear up the problem.

Thank you,

Ron Milliner
